*If there is something else you need help with or would like instruction for, please feel free to contact me and I'll work on it or yield assistance.*

Please note that some prices can change without prior notice. I attempt to list current pricing information on my website: [www.swsupply.com](http://www.swsupply.com)

Because Perazzi-Italy has never offered to list particular parts typed use in earlier models, and in many cases different styles of parts were used is the same models, it would be beneficial to call me when ordering to avoid wrong part(s) ordered.

If you happen to order the wrong parts, I have no issue with you exchanging, if they are in the same condition as shipped. I normally do not charge restocking fees on current orders except "special orders". All exchanges must be made within 30 days of order and NO returns are accepted beyond 30 days.
