

Jim,

Rec: 7/25/2016

Thank you for all the time and effort you put in to repairing my Perazzi TM1.

Sorry for all the phone calls and having to send it back and forth all those times. I appreciate all your knowledge and insight for

these guns, it's great to have a gunsmith you trust! Thank you for your patience with me and my dad. When it comes to "exotic"

guns, we don't know anything! It was great to meet you in Minneapolis. Sorry if I couldn't stay very long and talk about

shooting, I had to meet someone in Hudson, Wisconsin to buy a chainsaw. In the package is a Eden Prairie Police Department challenge

coin. It is from my dad. He thought you would like it, he gave me one too, I think they are pretty cool. He just retired a couple weeks ago and he brought home a whole lot of Eden Prairie Police things I didn't know he had. I think these challenge coins are a new design though.

Thanks again!

Adam & Rob ~~██████████~~

Hi Jim..... just a quick note first to apologize for not getting back to you sooner and secondly to thank you for your great service for us Canadians. It was a real pleasure to communicate and deal with you. I received all of my parts and everything fit perfectly thanks to your on line servicing pages. It is great to know we have places like yours to rely on and I have you saved in my documents for future use when needed. Thanks again Jim and you have a great day. From a happy customer.

Subject: tm1 trigger

Whiz I received the trigger back today along with the other complimentary Perazzi perks. Put 75 rounds thru the gun and the trigger was awesome. Thanks for the great service and the great price.

You are one in a million, Best of luck shooting.

Lennie (AZ)
